Cannabichromene (CBC)	<0.001
Tetrahydrocannabivarin (THCV)	<0.001

Method	Key	Testing Location
British Cannabis performs inhouse quantification of cannabinoids using HPLC-UV analysis on a Shimadzu Prominence-i LC-2030C Plus.	All results are displayed as percentage weight by weight and care should be taken to allow for the density of the product when calculating the final amount of cannabinoids in the product.	BRITISH CANNABIS Labs 3 Ashville Way Wokingham RG41 2PL Berkshire (UK)

These products are compliant under the E/C Food supplement regulation which applies across the EU and in the UK. They also cover any guidance provided by EU or UK. As a food supplement, we can verify that CBD Health Foods t/a British Cannabis products do not fall under the Misuse of Drugs Act 1971 as no products contain any controlled substances (including THC). All these products have been tested and show non-detectable levels of THC which can be verified by certificates of analysis.
